Integrative Mastery Programs

MASTERING THE BRILLIANCE WITHIN

How is this Program different from all the others out there?

This Program combines the best components, wisdom and qualities of the most updated information available on how individuals achieve personal power in their lives. Sources for the information are extensive, but include breakthrough research by the best sources of knowledge in the past and the present in the realms of personal psychology, art, spirituality, academic research, business and the experiences of thousands of people.

Based on this collection of information on what makes humans effective and ineffective, *values-based thinking* and actions are integrated into your training to clarify and empower you to operate from commitment, rather than comfort.
